

# Complementary therapies

## Diagnosis and Treatment

# Introduction

This booklet uses easy words and pictures to help you get information about cancer.

You might want someone to help you look at the booklet so you can talk about it.

There is a Word Bank at the back of the booklet to help with hard words. Any words in **bold** you can find in the Word Bank.

This booklet can help you learn about cancer. But this is not the same as talking to your doctor. If you are worried about your health, you should talk to a doctor or nurse.

# Complementary therapies

## What are complementary therapies?

Complementary therapies can help you feel better while you have your other cancer treatments.

They can help you feel more relaxed and less **stressed**.

They may help you feel better if you are sick or in pain from your cancer treatment.

# Complementary therapies

There are lots of complementary therapies. Some you could find out more about are:

## Aromatherapy massage

This is being massaged with oils that smell nice. This can help you relax.

## Reflexology

This is massaging different parts of your feet to help you feel more relaxed.

# Complementary therapies

## Yoga

This is different stretching and breathing exercises that can help you relax.

Ask your doctor or your nurse what therapies you can have along with your other cancer treatments.

You can also ask them where you can go for therapies you would like to have.

# Word Bank

## Diagnosis

A diagnosis is finding out whether you have an illness or not.

## Stressed

When your mind and body feel bad because you are worrying about something.
